Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Response to Amendment

1. Applicant's amendment filed November 10, 2004, has been entered. Claim 1 has been amended as requested. The pending claims are 1-11, with claims 3-9 being withdrawn as non-elected.

Claim Rejections - 35 USC § 103

2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

3. Claims 1, 2, 10, and 11 stand rejected under 35 U.S.C. 103(a) as being unpatentable over US 4,043,749 issued to Huffman and/or Us 5,131,918 issued to Kelley in view of US 5,681,620 issued to Elgarhy as set forth in section 3 of the last Office Action.

Response to Arguments

4. Applicant's arguments filed with the amendment of November 10, 2004, have been fully considered but they are not persuasive. Specifically, applicant asserts that the amendment which limits the drying to step to drying using infra-red energy is sufficient to overcome the prior art rejection since Elgarhy does not employ the same drying temperatures nor use infra-red energy to dry. Despite the fact that the present article claims are now commensurate in scope with the allowed method claims of the parent application, 10/038,404, and despite the fact that the

Art Unit: 1771

method of the prior art is different from the presently recited method steps, this argument is unpersuasive.

5. As noted in the last Office Action, these limitations are method limitations in an article claim and said limitations are not given patentable weight at this time. It is the examiner's position that the prior art product is identical or only slightly different than the presently claimed product prepared by the method presently claimed, because both comprise a carpet having acid dyed yarns and cationic dyed yarns with a stainblocker thereon. Even though product-by-process claims are limited by and defined by the process, determination of patentability is based on the product itself. The patentability of a product does not depend on its method of production. If the product in the product-by-process claim is the same as or an obvious variant from a product of the prior art, the claim is unpatentable even though the prior product was made by a different process. *In re Thorpe*, 227 USPQ 964. The burden has been shifted to the applicant to show unobvious differences between the claimed product and the prior art product. *In re Marosi*, 218 USPQ 289. Applicant has failed to evidence any structural differences between the present invention and the prior art product that are attained from the claimed process steps. Without such objective evidence, the rejection is maintained.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO

Art Unit: 1771

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
